Re: Review by NH Natural Heritage Bureau of request dated 2019-06-20

NHB File ID: 3187

Town: Unity, NH

Project type: Landowner Request

Location: 2-321, 321.1; 3-755; 5-618, 620, 752; 6-326, 546, 617, 749, 751; 7-622; 11-753; 12-619, 754, 780

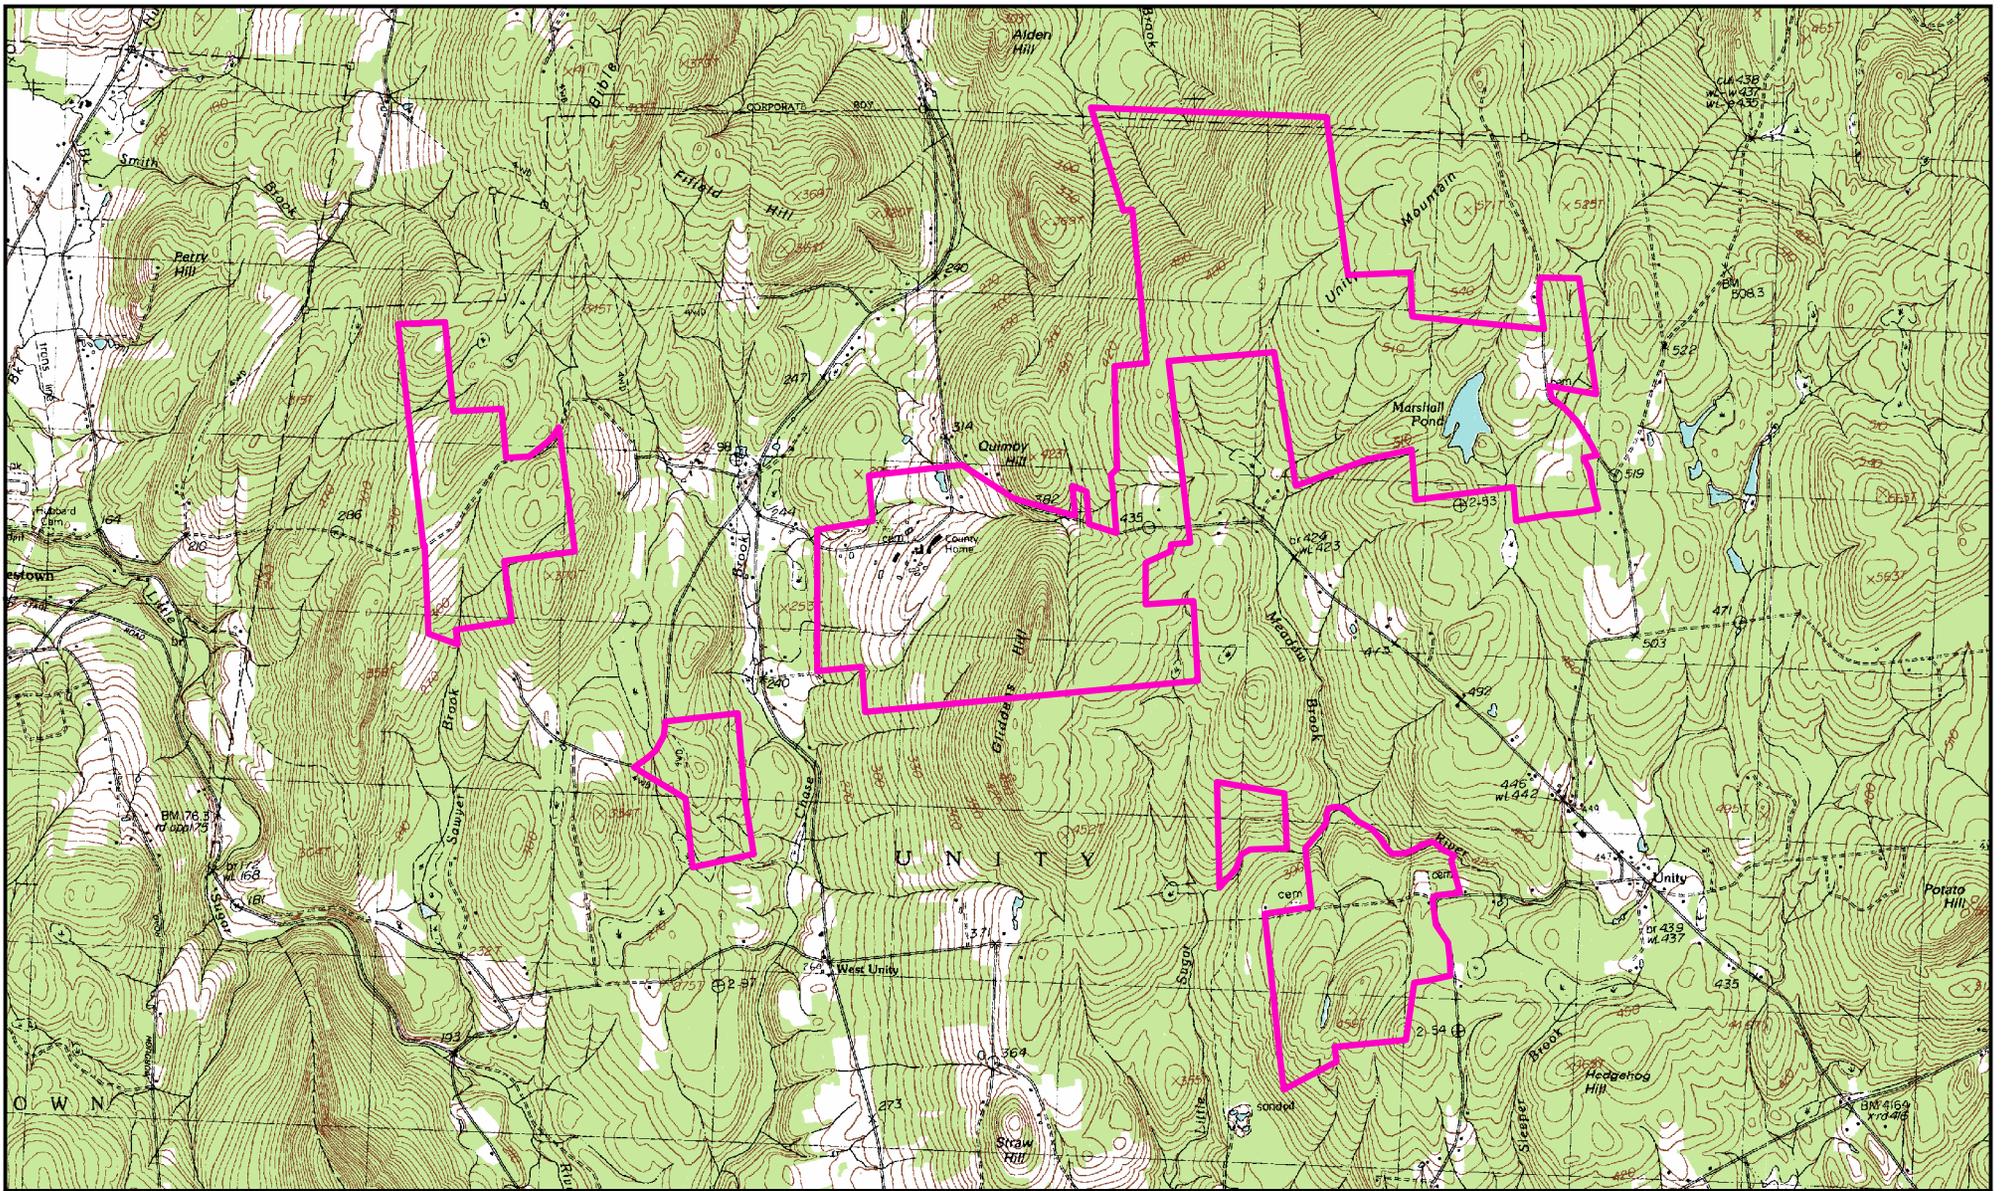

I have searched our database for records of rare species and exemplary natural communities on the property(s) identified in your request. Our database includes known records for species officially listed as Threatened or Endangered by either the state of New Hampshire or the federal government, as well as species and natural communities judged by experts to be at risk in New Hampshire but not yet formally listed.

NHB records on the property(s): **None**

NHB records within one mile of the property(s): **None**

A negative result (no record in our database) does not mean that no rare species are present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

NOTE: This review *cannot* be used to satisfy a permit or other regulatory requirement to check for rare species or habitats that could be affected by a proposed project, since it provides detailed information only for records actually on the property.

Natural Heritage Bureau Landowner Report

Project ID Number: 3187

NOTE: Any rare species and/or exemplary natural communities in this area are not shown unless they occur, at least in part, within the property bounds.
