SOMETIMES, THE BEST FIRST AID IS YOU

You are more likely to encounter someone — friend, family member, student, neighbor — in an emotional or mental crisis than someone having a heart attack. YMHFA, a National Council for Behavioral Health program, teaches a 5-step action plan to offer initial help to young people showing signs of a mental illness or in a crisis, and connect them with the appropriate professional, peer, social, or self-help care. Anyone can take the 8-hour course, but it is ideally designed for adults who work with young people, ages 12-18.
