HIV/AIDS for Recovery Support Workers

November 2, 2018 | 9am – 4:30pm | Kilton Public Library | 80 Main St West Lebanon NH

Presented by Ginger Ross, CRSW

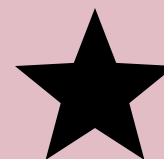

Overview

This one-day training is geared towards recovery coaches and substance abuse professionals, and will provide participants with basic and updated information about HIV/AIDS and other STDs. This includes risk factors, modes of transmission, signs and symptoms, prevention, the relationship between HIV and stigma. This training will explore the relationship between substance use and HIV/AIDS as well as the correlation between mental health and HIV/AIDS. Additionally, this training will emphasize the benefits of counseling clients on the benefits of HIV testing. 6 CEs available.

Goals & Objectives

- Increase foundational knowledge about HIV/AIDS
- Describe how HIV is transmitted
- Increase knowledge around signs and symptoms of HIV/AIDS
- Explain the process and benefits of HIV testing.
- Describe techniques for teaching harm reduction strategies to people who have co-occurring mental health conditions
- Demonstrate how to assess a client's risk for acquiring HIV/AIDS
- Increase knowledge level about HIV/AIDS prevention
- Explain the correlation between mental health and HIV/AIDS
- Increase ability to discuss the inter-relationship of HIV and other STDs
