Sullivan County ESP Installation Bid

Requests for information

May 4, 2018

Question: I'm looking for the thickness on the aluminum jacket for the exterior duct coming off the ESP to the stack? (either .016 or .020, smooth or stucco embossed)

Answer: Outside insulation covering is to be 0.016" thickness stucco finish aluminum jacket with a moisture retarder rated for outdoor conditions.

For the add alternate, inside insulation covering to be ASJ.
